Iran, Esfahan

Hello! I'm a passionate Frontend Developer with a keen eye for aesthetics and a commitment to crafting seamless user experiences. With a background in both design and development, I thrive at the intersection of technology and creativity. My journey began with a fascination for how websites looked and worked, drawing me into the world of HTML, CSS, and JavaScript. I specialize in building responsive, interactive web applications that not only meet client expectations but also delight users. I believe that usability and functionality should go hand in hand, which is why I make it a priority to keep my code clean and maintainable while ensuring that every detail enhances the overall experience. Staying current with the latest trends and technologies is integral to my work. I regularly explore new frameworks, libraries, and tools—like React, Vue.js, and SASS—to keep my skills sharp and innovative. My approach to problem-solving is data-driven but always infused with creativity.

PROFESSIONAL EXPERIENCE

FutureWaves - London, England | Remote

Sep 2022 - Oct 2024

Front End Developer

- Developed and maintained user-facing websites using HTML, CSS, JavaScript, and ReactJS.
- Collaborated closely with the back-end developers to integrate API calls into the front-end codebase.
- Created UI components with reusable codes for a better user experience.
- Development of large-scale projects
- Used version control systems such as Git to manage source code repositories in a team environment.

Quera - Tehran, Iran | Remote

Feb 2021 - Oct 2021

Course Mentor

- Helping course students to solve programming problems
- Applied conflict resolution strategies during interactions between mentors and mentees.
- Administered assessments to evaluate student's individual strengths and weaknesses.
